THREE RIVERS COMMUNITY COLLEGE
DIVISION OF NURSING
ADJUNCT INSTRUCTOR EVALUATION

Name: ___________________________

Each adjunct faculty will be asked to self-evaluate their performance and write a summary statement incorporating descriptor items. This will be reviewed by the Course Coordinator and submitted to the Director of Nursing Education who will then review it with the individual faculty member.

I. Member of Team

II. Facilitator of Student Learning

III. Professional Considerations

Coordinator Comments:

Coordinator ___________________________ Course: ___________

Review Date: __________ Faculty Signature: _______________________
Review Date: __________ Dir. of Nursing Signature: ___________________
THREE RIVERS COMMUNITY COLLEGE  
DIVISION OF NURSING  
ADJUNCT INSTRUCTOR DESCRIPTOR ITEMS

Member of Team:

- attends and/or contributes to course team and clinical agency evaluation meetings
- communicates with course coordinator as needed regarding course issues and student progress
- completes course and student evaluations in an objective manner
- assists in evaluating and making suggestions to modify course content and/or clinical experiences

Facilitator of Student Learning:

- uses appropriate teaching methods in the clinical area and assists students with problem-solving through role modeling
- assigns students to clients and clinical experiences based on assessment of individualized learning needs
- provides adequate supervision of students including the use of lab referrals and anecdotal forms
- assists students in correlating theory to clinical-based practice
- under the direction of course coordinator follows due process as described in student handbook

Professional Considerations:

- supports philosophy and objectives of the nursing programs and ADN education
- familiarizes self with course objectives, content, organization and student progress
- accepts and utilizes feedback and input from team coordinator and members
- orients self to agency, unit, policies and procedures
- is clinically proficient at level of course (would be able to maintain standard of care of any patient assigned to student)
