How to log into your student e-mail

To login to your student e-mail, take the following steps.

1. Navigate to the Three Rivers Extranet. At the bottom right, there should be a column of banners. Click on the one labeled Student email.

2. It should bring you to a page that overviews the CCC Student E-mail and myCommNet. Scroll down until you see a header labeled CCC Student Email/Office 365 details then click on the microsoftonline.com web link.
How to log into your student e-mail

3. Once on the Office 365 page, put in your Net ID (Student ID with @student.commnet.edu) into the username and hit Enter. After that, it will bring you to an Outlook online page which is your student e-mail inbox.

4. Another method of getting into your student e-mail is through myCommNet. Simply login to your myCommNet account then in the centered box labeled Access College Email click on the Login to Student Email web link. This is the first link from the top in the box. From there the steps are the same as Step 3 in this document.
