SCIENCES DEPARTMENT 2-YEAR PLAN OF COURSE OFFERINGS

Last Update 7-26-2016 Subject to Change

We provide two year plans as a guide to help students plan their course of study. Though every effort is made to offer the courses as planned, unforeseen changes in staffing, enrollment variations in each semester, funding, curricula and/or policies, require modifications as necessary. Students should check with their advisors with plenty of lead time in order to plan their courses to fulfill program requirements.

Please contact the Department Chair for any courses of interest that may have been omitted from this current plan or to inquire about plans for course offerings in the summer and winter sessions. Courses may be added to the schedule upon verification of student interest and instructor availability.
