

## How to Add Mashups

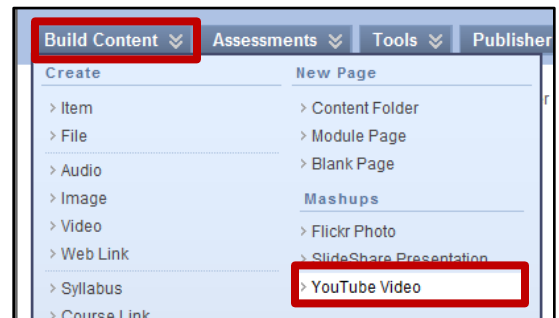

- ❖ Mashups are web pages or applications that combine data from two or more sources to create a new service. Examples of mashups are Flickr Photo, YouTube and SlideShare.
- ❖ Mashups can be added to a Learning Module or Content Area.

1. Click on **Course Content** and then select the **week** where you are adding the mashup.

2. We will add a YouTube video in this example.

3. Click on **Build Content** and under **Mashups** click on **YouTube Video**.

4. Enter search term(s) and click **Go**.

5. For each item, you can click the **Preview** button and begin viewing the video.

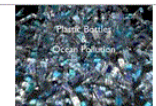

6. Click **Select** to add a video to your course.

## How to Add Mashups

7. The Edit menu appears and you can add items such as **Name** and **Description**. You can also set the **Options**, such as showing the URL and tracking the number of views.

**1. Add SlideShare Content to Course**
