Course Evaluation:

Exams will require the student to use what they have learned without the aid of detailed instructions. They will be worth 40% of the course grade. There will be no quizzes, no mid-term and no final exam. Your grade will be based on your homework/assignments and your performance on the exams.

All assignments are to be submitted via email to the addresses provided on the front cover of this document. Word documents, Excel spreadsheets and Access databases are to be sent as attachments to an email. All email must include your name, course name and the name of the assignment. All assignments will be due by midnight on the day of the Exam date. Any assignments received late will lose 10% or one letter grade for each Late Work date. (See dates to remember) All homework assignments will be graded. The sum of all homework assignments will constitute 60% of the grade for this course. ***Reading the book is important!!!!***

The first 20 minutes of each class will be set aside as labs; to work on assignments and answer questions or problems dealing with the assigned work. The rest of the class (two hours) will be taken up by new material.

Attendance and participation is important and mandatory. Ten percent of your total grade can be earned in this manner. Three or more absents would not be in the students best interest.
