- 4. To help students relate chemical concepts to practical applications.

Class Attendance Policy:

Attendance of all class activities in lecture and laboratory is required. Absences are counted from the first meeting of class. More than four consecutive or more than six accumulative absences could result in a student receiving an "F" grade in this course. An explanation of the cause of all absences should be given to your instructor either by phone or email. Any missed handouts or other supplemental material may be obtained from BlackBoard.

<u>Learning Portfolio</u>: All students are required to maintain an online learning portfolio in Digication that uses the college template.

Academic and Classroom Misconduct:

The instructor has primary responsibility for control over classroom and/or laboratory behavior and maintenance of academic integrity, and can request the temporary removal or exclusion from the classroom or laboratory of any student engaged in conduct that violates the general rules and regulations of the institution. This includes any student engaged in conduct deemed hazardous in the laboratory. Extended or permanent exclusion from lecture or laboratory activities or further disciplinary action can only be effected through appropriate procedures of the institution. Plagiarism, cheating on quizzes or tests, or any form of academic dishonesty is strictly prohibited. Students guilty of academic dishonesty directly or indirectly will receive a zero for the exercise or quiz or test and may receive an "F" grade for the course in addition to other possible disciplinary sanctions which maybe imposed through the regular institutional procedures. Any

student that believes that he or she has been erroneously accused may appeal the case through the appropriate institutional procedures if their grade was affected.

College Withdrawal Policy:

Any student who finds it necessary to discontinue this course MUST complete a withdrawal form in the Registrar's Office at the time of the withdrawal. Students may withdraw from the course any time during the 14 weeks of class to receive a "W" grade for the course (Deadline will be announced). Students who do not withdraw, but stop attending will be assigned an "F" grade in in this course. Verbal withdrawals CANNOT be accepted. If you are unable to withdraw in person, you may call the Registrar's Office and provide them with the appropriate information. Once you withdraw from the course you are no longer eligible to attend class or take any remaining quizzes or tests.

Revisions to the Syllabus:

Students are responsible for learning all of the objectives and all of the items in the course outline whether they are discussed in lecture and/or laboratory or not. The instructor reserves the right to revise the objectives, topical outline, or academic schedule contained in this syllabus without notice. However, if the revisions affect scheduled unit tests a 48-hour notice will be given for the new test date.

Grade Determination:

4 Unit Tests	75%
2 Lab Tests (midterm, final) plus lab reports	25%

Breakdown:

•	4 unit tests, 100 pts each:	$400 \text{ pts } \times 0.75 = 300 \text{ pts}$
---	-----------------------------	--

11 lab reports, 18.182 points each: 200 pts
 Two lab tests, 100 points each: + 200 pts / 400 pts x 0.25 = 100 pts / 400 pts*
 Total points: 400 pts

Grade Scale: There will be no grading on the normal distribution curve.

100.00 - 93.50 = A	79.49 - 77.50 = C +	59.49 - 00.00 = F
93.49 - 90.00 = A-	77.49 - 73.50 = C	
89.99 - 87.50 = B +	73.49 - 69.50 = C	
87.49 - 84.50 = B	69.49 - 63.50 = D +	
84.49 - 79.50 = B-	63.49 - 59.50 = D	

Make-Ups:

Any supplemental material can be obtained from the instructor. Lab work can only be made up during the week of the missed experiment with permission of the instructor in a scheduled lab period. Unit tests can only be made up by special arrangement with the instructor. Makeup tests will be granted on an individual basis only following a conference with the instructor, where the reason(s) for missing the test must be determined as

^{*}Extra credit points (up to 5, added to point total) may be earned by completing online homework assignments.
