Course: Music and Movement  
Common Course Number: ECE 106 (Was CDV 132)  
Credits: 3

Course Description: This course is designed to have students acquire skills in order to plan and implement creative music and movement education experiences for children from infancy through age eight. Areas of exploration will include singing, listening to music, rhythmic activities, chants, creating music, using instruments with children, multicultural music, dance and movement, musical games, music for children with special needs, and using music spontaneously in the classroom. The main goals of the course are to develop an understanding of the importance of music and movement education experiences in an early childhood environment, the role that music plays in the growth and development of young children, and how these experiences can be creatively planned, implemented and integrated throughout the daily curriculum. All students will build a repertoire of music and movement education experiences.

Prerequisite: Eng 100, ECE101 or permission of instructor

Outcomes:
Students:
1) Develop music & movement plans & activities, which will enhance the development of the child.
2) Understand theories in music and movement and their implementation.
3) Comprehend their role as classroom teacher in providing music & movement experiences for young children.
4) Create a repertoire of music & movement resources for classroom use.
5) Know numerous strategies for implementing activities and understand the modifications may be necessary for children with special needs, from diverse back rounds or with different learning styles.
