Introduction To Special Education (ECE K150)

SYLLABUS SPRING 2007
Thursday 3:30 – 6:20 PM
Room # 103

Three Rivers Community College – Mohegan Campus
Norwich, Connecticut 06360

John Cormier, M.A.
Phone/voicemail: 376-7648
Email: jcormier@griswold.k12.ct.us
Office Hours: by appointment
COURSE DESCRIPTION:
3 Credit hours

This course introduces students to the role of special education as well as its basic principles and practices. Among the topics addressed is an historical perspective on current practices, laws, regulations, and ethical codes governing special education; political, social and philosophical issues in special education; researched-based intervention and instructional methods in special education; the roles of the teacher, support staff, and instructional paraprofessionals; and the process of making decisions about the education of individual special need children.

PROCEDURES:
This course is designed to allow the student to participate in the educational process through the use of a variety of learning techniques and activities. All students are expected to participate in and contribute to classroom learning activities.

COURSE OUTCOMES:
Upon completion of this course, the student will be able to:
1. Demonstrate practical understanding of special education terminology and procedures
2. Show awareness of characteristics associated with common groups of exceptional learners and specific educational techniques used to assist them
3. Express a basic understanding of statistical principles and assessment techniques used to evaluate and classify the skills/abilities of young and school-aged children (observation, documentation, standardized testing)
4. Understand both state and federal laws, regulations, and ethical codes governing special education and how it impacts children with special needs and their families
5. Discuss and understand the different programs, support services, curricula, and professional responsibilities associated with special education
6. Demonstrate awareness and understanding of the changing political, social, and philosophical issues in special education
7. Make informed and confident decisions about how to provide exceptional learners with an appropriate education
8. Apply knowledge that will allow them to further develop skills necessary to work successfully with exceptional learners of all ages

Method OF Evaluation:
Class attendance and individual contribution
Terminology/vocabulary quizzes
Research/Position paper and presentation
Site visit and written summary
Classroom role-playing simulations (SIT, PPT)/resulting products (IEP, 504 Plan, FBA/BIP)
Notebook/Response Journal
COURSE REQUIREMENTS AND EVALUATION BREAKDOWN:

<table>
<thead>
<tr>
<th>Course Requirements</th>
<th>% of grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Research Position Paper and Presentation</td>
<td>20%</td>
</tr>
<tr>
<td>2. Site Visit and Written Summary</td>
<td>20%</td>
</tr>
<tr>

<tr>
<td>D</td>
<td>63 – 66</td>
<td>1.0</td>
</tr>
<tr>
<td>F</td>
<td>&lt;63</td>
<td>0.0</td>
</tr>
</tbody>
</table>

ATTENDANCE GRADING SCALE:
This course is designed in such a way that weekly attendance is necessary to gain required knowledge to meet course objectives. Therefore, students that are registered for this course are naturally expected to attend class regularly. Class absence will negatively impact your final course grade through your attendance/participation grade (worth 10% of final grade) as follows:

- NO ABSENCES = 100 pts.
- ONE ABSENCE = 96 pts.
- TWO ABSENCES = 86 pts.
- THREE ABSENCES = 76 pts.
- FOUR ABSENCES = 66 pts.
- FIVE or MORE ABSENCES = 00 pts.

MAKEUPS/MISSED CLASSES:
Students are required to participate and complete all assignments by the established due date (class absence will not excuse due date completion). Students who have a legitimate reason for missing an assignment deadline will need to make special arrangements with the instructor prior to the due date work is due. A grace period of one week is permitted for late work with a 20% automatic point reduction. No credit will be given for late assignments past the one-week grace period.

EARLY WARNING POLICY:
In addition to a review of grading policy and course requirements at the start of the semester, each student will receive a personal grade sheet to monitor their on-going performance in the course throughout the semester (see attachment). In addition, I will regularly communicate with each student by mid-semester who is in danger of failing due to academic difficulty or poor attendance.
COLLEGE WITHDRAWAL POLICY:
Students may withdraw in writing at the registrar’s office for any reason until the end of the 10th week of classes. From the 11th week through the end of the 13th week, a student may withdraw with the signature of the instructor and advisor.

DISABILITIES AND LEARNING DIFFERENCE STATEMENT:
If you have a hidden or visible disability or learning difference which may require classroom or test-taking modifications, please see me as soon as possible. If you have not already done so, please be sure to register with the Student Development Office at the Mohegan Campus (Chris Scarborough – Student Disabilities Counselor).

CELLULAR PHONES AND BEEPERS:
Use of cellular phones and beepers are permitted in class only if turned to silent mode. Under no circumstances are phones to be answered in class.
# COURSE OUTLINE:
## Introduction To Special Education (ECE K150) – Spring 2007

REQUIRED TEXT:
Introduction to Special Education (ECE K150-Spring 2007) has no required text. Handouts/materials reinforcing classroom learning will be distributed weekly. The following texts/websites provided good reference materials:

Gober, Sue, Six Simple Ways To Assess Young Children. Albany, NY: Delmar, 2002

National Association for the Education Of Young Children http://www.naeyc.org

Nation Association of School Psychologists http://www.nasponline.org

SEMESTER DATES OF IMPORTANCE FOR ECE K150:
Jan. 25th - Class begins
Feb. 2nd - Last day of Add/Drop and Partial Tuition Refund
March 22nd - No class (Spring Recess!!)
March 30th - Last day to withdraw from class without instructor’s signature
April 23rd - Last day to withdraw from class with instructor or advisor’s signature
May 3rd - Last regular class period
May 10th - To be announced/Final exam week
Name: ______________________

- PPT/IEP Role-Play

Grade ________ 20%

Notebook/Journal

Grade ________ 10%

Attendance/Participation

Grade ________ 10%

**Final Numerical Weighted Grade** ________

**Recorded Letter Grade** ________
NOTEBOOK/JOURNAL REQUIREMENT
Each student is responsible for developing and maintaining a course notebook/journal. This notebook/journal will be submitted at the end of the semester for a grade worth 10% of the final course grade. The intent of this assignment is to have each student maintain a “neat” and “orderly” working document on special education/education to be used for reference both during this class and for subsequent courses and work experiences in education/child development.

The notebook/journal should contain the following materials arranged neatly in a 3-ring binder:
- all class notes
- all handouts
- all research assignments/activities
- terminology quizzes
- focus question responses

Notebooks/journals will be graded on “thoroughness” and “neatness/organization”. Class notes do not need to be typed but should be legible and organized by date or topic. Notebook will be graded according to the following:

\[ \checkmark + = 90-100/ \text{“A”} \] – Notebook is complete with all materials. Materials in notebook are neat and securely attached. A few additional materials are included to support learning (articles of interest, one/two personal reflections, etc.). Materials are attractive with attention to detail observed.

\[ \checkmark = 80 -90/ \text{“B”} \] – Notebook is complete with all materials. Materials in notebook are neat and securely attached. Materials are attractive with attention to detail; or additional materials may be present but notebook lacks attention to detail/neatness.

\[ \checkmark - = 70 - 80/ \text{“C”} \] - Notebook lacks completeness but is not seriously incomplete, and/or lacks neatness. Materials in notebook are not secure or may lack organization.

\[ - = <70/ \text{“F”} \] - Notebook is seriously incomplete with many missing or lost materials. Materials that are present lack organization and/or neatness in appearance.

FOCUS QUESTION RESPONSES:
One or two topic focus questions will be provided at the start of each class period (presented on board for copying) to help organize and direct learning. Presented class lecture material and class activities will provide learning needed to answer these posed questions. Following each class period, each student will be required to summarize learning by submitting a response to each focus question due at the start of the next class. Focus question responses are aimed to help organize learning and reinforce material presented.

Responses should be typed and well organized for understanding (grammar, spelling). Length should be sufficient to “adequately” address the topic and summarize learning presented. While
many focus questions allow for response with both factual information and opinion, factual data should not be ignored. Responses need not be longer than 2-3 paragraphs per question. Responses should be arranged as follows:

Name: ____________________
Date: ________________
Course: Intro. to Special Education - ECE K150

Focus Question #1: _________________________________________
Your response……………………………..
Focus Question #2: _________________________________________
Your response……………………………..

Focus Questions will be graded as follows:  \( \sqrt{+} = 100 \) - Response(s) adequately covers topic and is well written.
\( \sqrt{ } = 85 \) - Response(s) require slightly more coverage; or lack clarity in response.
\( \sqrt{-} = 65 \) - Response(s) lack adequate coverage; poorly written.

SITE VISIT ASSIGNMENT and PRESENTATION:
Research and obtain information on a particular facility (program) that interests you. The facility should provide educational/developmental support services to a special education population or to young children with identified developmental needs (Head Start Program). Please have your program selection approved by the instructor prior to making an appointment.

Contact a program and make an appointment to visit and interview a “significant player” within the agency. The site visit interview should be structured to obtain as much information about the program as possible.

A paper summarizing the program should be developed from the information you obtain. It should reflect your thoughts and feelings about the program as well as the basic program information. Your research paper should be between 2-4 pages in length, typed and double-spaced. (Grading rubric to be provided)

The following is a list of questions you may wish to use during your site visit. Please feel free to modify your approach and the questions based on the facility and/or interviewee:

- What population does your program serve?
- How are individuals referred to your program?
- What is the average age of the population you serve?
- What is the average length of stay in this program?
- What types of services/interventions are offered in this program?
- Are there both formal and informal means of assessing performance used?
- What credentialing is required for the staff?
- How and to what extent are families involved in the programming?
- What does a “typical” day look like for an individual in this program?
- Is there an information handout (booklet) describing your program that I can share with others.

Following the interview, each student is responsible for preparing a five-minute informal presentation to the class on their site visit experience. The simple objective is to educate the class about the program you visited. Emphasis should be placed on creating a presentation that describes the environment, the program components, and the population served.

RESEARCH/POSITION PAPER
A research/position paper will be developed and written on a “topic” related to Special Education or Schooling/Services for Exceptional Learners. Topics focusing on characteristics of “exceptionalities” are to be avoided (ADHD, Autism, etc.). Each student will choose (with instructor’s consent) a topic to investigate (see sample topics below), from which a personal opinion on the subject matter will be generated and shared, supported by data researched. Papers must include: 1) a brief historical review of the topic under investigation; 2) explanation of importance to special education/special ed. population; 3) a personal opinion on the topic supported by research findings. (Grading Rubric to be provided)

The body of the paper is required to be 3-5 pages in length (12pt. Font/Double Spaced) and in addition also include a: Title Page – formatted as follows:

Title
Course Name and Number
Instructor’s Name
Your Name
Submission Date

Bibliography Page (APA-Format; Citing a minimum of three (3) resources used)

Sample Topics:
- Inclusion
- No Child Left Behind
- Grade Retention
- High Stakes Testing
- School Discipline and Special Education
- School Privatization
- Early Intervention Initiative
- Home Schooling
- School-based Community Health Services

ROLE-PLAY ACTIVITIES:
Assigned to one of two case studies, all students will take part in two group role-play activities (Child Study Team/Student Intervention Team Meeting and a PPT Meeting), and will individually develop a Behavior Intervention Plan (BIP) from a case study and FBA, and IEP Goals/Complete an IEP from student data provided. Review and sample information will be provided prior to simulation. Students will be assessed according to understanding of mock role played, understanding of meeting/legal procedures, and quality/appropriateness of document created to address student learning concerns. (Scoring Rubric to be provided).
ACADEMIC INTEGRITY POLICY

The effective operation of any organization is dependent on the honesty and goodwill of its members. In an organization devoted to the pursuit of knowledge, acting with integrity is essential to effective teaching and learning. Furthermore, academic dishonesty erodes the legitimacy of every degree awarded by the College Definitions of Academic Dishonesty.

General Definition (Student Discipline Policy, section 2:10, Board of Trustees of Connecticut Community Colleges)

Academic Dishonesty shall in general mean conduct which has as its intent or effect the false representation of a student’s academic performance, including but not limited to (a) cheating on an examination, (b) collaborating with others in work to be presented, contrary to the stated rules of the course, (c) plagiarizing, including the submission of others’ ideas or papers (whether purchased borrowed or otherwise obtained) as one’s own (d) stealing or having unauthorized access to examination of course materials, (e) falsifying records of laboratory or other date, (f) submitting, if contrary to the rules of a course, work previously presented in another course, and (g) knowingly and intentionally assisting another student in any of the above, including assistance in an arrangement whereby any work, classroom performance, examination or other activity is submitted or performed by a person other than the student under whose name the work is submitted or performed.
