Select one of the three projects below. You will be required to submit a comprehensive report for your selection. An example of APA formatting is included with this syllabus. This paper is due by the end of class during week 13.

1. Review Chapter 5. What is your department's discipline policy? How can it be improved? Using Progressive Discipline, state how you would handle a problem firefighter, who is consistently causing trouble, yet carefully avoids "stepping over the line" making dismissal a possibility. How can we motivate the "problem firefighter"? (Hint: Always giving him his way is not an acceptable alternative!)
2. Review Chapter 4. You are the Fire Chief, and you have to prepare next year's budget. Obtain a copy of your department's current budget, and identify what budget type your city or town is using, and use this format for your next year budget. The challenge that you are faced with is that you must reduce your overall bottom line by 10% due to decreasing tax revenue.
3. Review Chapter 11. State your department's mission statement. (If you don't have one, make one.) Now identify what you feel is (or should be) your department's Short term, Long term, and Strategic Planning goals are. Include justifications for the opportunities that you are identifying in your plan. Remember money doesn't grow on trees!
