REQUIRED TEXT:

-Myers, D.G. (2013). Psychology: Myers in Modules (10th ed) and PsychPortal. New York: Worth Publishers

-You may find PsychPortal an excellent source for course enrichment and helpful study activities (or use the ebook for readings). Per TRCC psychology curriculum coordinator "...when students purchase a subscription to PsychPortal the length of subscription is 365 days. Therefore, students who wish to take both General Psychology 2 and General Psychology 1 only need to buy the subscription once" (if taken in consecutive semesters). All required online activities (e.g. tests, discussions, etc.) for this section will be conducted in the college BlackBoard system that is independent of PsychPortal and is provided by the college as part of your registration in this class.

*Due to financial constraints, some students may choose to use the 8th edition (2007) or 9th edition (2010): This will probably save you money and I will attempt to remark on content differences in class, but I cannot guarantee all content required for class will be presented in the earlier editions. To be helpful, I have included the reading lists for earlier editions in this syllabus and conduct required/graded activities (e.g. quizzes, discussions, etc. in BlackBoard).

ASSIGNMENTS:

-Reading assignments (see attached schedule) should be completed prior to class so that we can have active discussions about the material both as a whole class and in small groups. There is a lot of reading and it is important to keep up. *If you're having trouble keeping up, or understanding the material, please speak to me right away.*

-WRITING/READING: You will complete a series of assignments on academic reading and writing in psychology. Detailed instructions and schedule of due dates will be provided during the second week of class.

-Quizzes: There will be Three quizzes. They will consist of multiple choice, short answer and/or essay questions. A study sheet will be given before each quiz. If you have taken ALL quizzes ON TIME, you may choose to retake one quiz. Makeups/retakes will be given at the end of the semester, will differ in format, and will be MORE DIFFICULT.

-Final Exam: Will be cumulative and will consist of multiple choice, and (maybe) short answer and essays.

-Class participation: Attendance *and* participation are required. This means coming on time to all classes, having done the assigned reading, and joining in class discussions. If you miss a class it is your responsibility to obtain notes, make up assignments, connect with group project members, and/or note changes to the syllabus that are presented in class. *Each class you will fill out an activity sheet to document participation for grading. If you do not turn in the evaluation sheet a grade of 0 will be entered.* More on this in class.

-Late Work: In the instance of emergencies and (some) unavoidable obstacles late work will be allowed, but may be reduced in grade by up to 2 points per day. If an extension is needed, please contact me as soon as possible. Also, **late work will likely not be graded until the end of the semester** (or even after the end of the semester during intersession). Please contact me individually if you need to discuss. Please note, class participation cannot be made-up.

-Extra Credit: You may earn up to 5 points of extra credit for this class by completing a service learning project including creating a resume, applying for a volunteer experience, completing hours at an agency or school, and a reflection paper. If you are interested in this option you **must indicate interest and develop a written proposal/plan within the first two weeks of the semester.**

Digication statement: The college requires the following statement:

“All students are required to maintain an online learning portfolio in Digication that uses the college template” (Faculty Resource Handbook for General Education, AY 13-14, pg 30).

It is unclear to me at the time of this writing what this will entail, but I will share information as it becomes available to me.

STUDENT CONDUCT: All students are expected to behave as responsible and mature adults. This means participating in class discussions in a respectful, prepared, and thoughtful manner. Students will be encouraged to express opinions and beliefs in class. It is important that critical discussions and feedback are conducted in a considerate and scholarly manner. The work of others that is not properly credited is plagiarism. This is unethical and illegal and will result in referral to proper school authorities and/or a failing grade for the assignment and/or course. The college recommends we include the following passage taken from the TRCC handbook (2006) “Academic integrity is essential to a useful education. Failure to act with academic integrity severely limits a person’s ability to succeed in the classroom and beyond. Furthermore, academic dishonesty erodes the legitimacy of every degree awarded by the College. In this class and in the course of your academic career, present only your own best work; clearly document the sources of the material you use from others; and act at all times with honor.” We will discuss these issues in more detail at the start of the semester. If you have questions about what it means to be considerate and scholarly please be sure to ask questions and clear this up.

SPECIAL NEEDS: If you have any special needs related to the class (e.g. physical or learning challenges), please contact a counselor at the start of the semester (see below).

Also, if any difficulties arise that may interfere with your full participation (such as not understanding course material, missed class, etc.), please contact me as soon as possible.

DISABILITY SUPPORT SERVICES

If you have a disability that may affect your progress in this course, please meet with a Disability Service Provider (DSP) as soon as possible. Please note that accommodations cannot be provided until you provide written authorization from a DSP.
