

THREE RIVERS COMMUNITY COLLEGE
ARCHITECTURAL DESIGN STUDIO I · ARC K211
 (Thursday 5:30 – 9:50pm)

Instructor: Mark A. Comeau, AIA (Day: 885-2387), email MComeau@trcc.commnet.edu
Grading: Students will be graded on various projects throughout the semester in accordance with the following criteria:

- How well the student identifies the problem;
- The student's ability to gather problem solving data & information;
- The student's ability to synthesize that data and information;
- Creative communication of the architectural solution.

Course Objective:

To introduce the Architecture student to the fundamental methodologies of an architect's decision making process. Students will work individually and in groups, as they apply their studies to the solutions of small "vignettes" or architectural projects that explore form and space design, and ordering systems. Emphasis in Design I is placed more upon the *path* of design and the decision making process, than a "polished" solution.
