

Three Rivers Community College
Basic Algebra Math 095
Spring 2010
Adjunct Professor: Sue Butler

Course Schedule: Mondays and Wednesdays
2 – 3:15 p.m.
Room D224

Supplemental Course Website: www.coursecompass.com

Contact Information: email: butlersueq@yahoo.com

Text: *Beginning Algebra*, 5th edition, by Elaine Martin-Gay

Calculator (optional): The TI-83 or TI-84 is required in the next math course. You may want to use the TI-89 if you are taking math courses beyond intermediate algebra. Any standard calculator will work also.

Course Description: This course extends the basic algebra skills acquired in Math 075. The topics include: exponents, polynomials, factoring, graphing, systems of linear equations, inequalities, radicals and scientific notation. Prerequisite: Math 075, its equivalent, or acceptable placement test score.

Grading Policy:

Determination of your grade will be based on the following:

1. Exams: There will be four in-class exams, including the final exam, for a total of 400 points. Each exam represents 25% of your course grade. See Makeup Exam.

Optional: You have the option of replacing **one** in-class exam grade with a similar exam posted online. Online exams can be retaken up to three times, at any time during the semester, until you are satisfied with the results. (Each attempt will have slightly different problems.)

Here's the catch: If an online exam is substituted for an in-class exam, the "weight" of the final exam increases from 25% to 33%

2. Homework: Homework will be assigned at each regular class session, excluding exam days. Homework will be collected and recorded for effort, not accuracy. Each assignment will count as a 1 point toward your final grade for a total of up to 20 points. Late assignments will not be accepted after their corresponding exams.

Optional: Online Homework: Successful completion of the online assignments (via www.coursecompass.com) for each chapter will be factored in to **each** exam grade (up to 20%), for either online or in-class exams.

3. Attendance: Any more than 4 absences may, as determined by the instructor, drop your grade one level: A to A-, B+ to B, and so on. Tardiness will be noted. Excessive tardiness may accumulate as one or more absences.

Classroom Policy:

I respect you and expect respect from you. Being a mature college student entails responsibility. This means you are responsible for yourself, your education, your assignments, your behavior, your attitude, your timeliness, and your contributions to the classroom atmosphere. I expect all students to be prompt, attentive, prepared, supportive of their classmates, and contribute to a positive classroom atmosphere.

Other Miscellaneous FYI's

Final Exam:

The final exam is not optional. It is an in-class exam *only*. You must complete the final exam with a minimum grade of 50% to get a C or better in the course.

Make-Up Exam:

A missed test or low test grade may be replaced by a (comprehensive) make-up exam to be scheduled during final exam week.

Absence:

If you are absent on the day of an exam you will have until the *next regularly scheduled class session* to contact me and make arrangements to take your exam.

OR you may opt to replace your missing exam with the corresponding online exam as described above,

OR the make-up exam at the end of the semester.

Early Warning:

Students experiencing academic difficulty and/or chronic absenteeism will be notified of their class standing.

Academic Dishonesty:

Conduct which as its intent or effect the false representation of a student's academic performance and/or knowingly and intentionally assisting another student to do so in any way constitute academic dishonesty. In the event of academic dishonesty, the College's policy will be enforced.

Cellular Phones and Beepers:

Students are notified that cellular phones and beepers are allowed in class only if they are turned off or turned to a silent mode. When there are extenuating circumstances that require that a student be available by phone or beeper, the student should speak to me prior to class so that we can arrive at an agreement.

Grade Equivalents: out of 420 points.

A	93 - 100	C+	77 -79
A-	90 -92	C	73 - 76
		C-	70 - 72
B+	87 - 89		
B	83 - 86	D+	67 - 69
B-	80 - 82	D	63 - 66
		D-	60 -62
		F	59 or lower

Please note that a grade of C or better is required to go on to the next course.

Withdrawal Policy: A "drop or withdrawal" from the course will be accepted through the 10th week of classes in accordance with the designated withdrawal deadlines.

Students need to fill out the special withdrawal form available at the registrar's office: Withdrawals are processed only through the Registrar's Office at (860) 892-5756 or the Subbase at (860) 445-5575. Students who do not withdraw, but stop attending will be assigned an "F".

Disabilities Statement: If you are a student with a disability and believe you will need accommodations for this class, it is your responsibility to contact the disabilities Counseling Services at 383-3240. To avoid any delay in the receipt of accommodations, you should contact the counselor as soon as possible. Please note that I cannot provide accommodations based upon disability until I have received an accommodation letter from the disabilities counselor.

This course has been set up as a **MyMathLab-based course**.

MyMathLab is a website that is available to you 24/7, whereas our total class time each week is less than 3 hours.

MyMathLab is an incredibly powerful tool to help you master the concepts in this course.

MyMathLab is not required to successfully complete this course; however it is ***strongly recommended*** that you take advantage of the opportunities available to you only through MyMathLab. (See the grading policy.)

MyMathLab contains an online version of your textbook, links to video clips, practice exercises, animations, and unlimited tutorial exercises.

It will be your responsibility to use MyMathLab to familiarize yourself with the material covered each week, and to keep up with the course schedule in case of absences, class cancellations due to inclement weather, instructor absence, or your own absence(s). Class time will not be entirely lecture-based. Instead we will use that time to problem-solve together or in small groups.

MyMathLab Registration instructions:

The codes you need to register online with MyMathLab are provided in **new** textbooks in the student registration packet, **OR** for a separate fee of approximately \$70 (subject to change) using a credit card.

You will be prompted to enter the code that comes with the packet. Please record your choices for your username and password. You will need them each time you log into MyMathLab. Your home computer may need to install “installation wizard”, and “allow pop-ups on this site only”. The zip code for Norwich is 06360.

If you are already enrolled in MyMathLab for another Math 095 course, just click on “enroll in another course” and enter the new code.

Our Course Code is: butler83613

Please be sure to log in to the correct course.

General Tips for Success

Attend all class periods. REQUIRED! Please be prompt. Excessive tardiness is disruptive. Make sure your work hours do not conflict with the course schedule. Have a back up plan for emergencies: car trouble, illness, child care.

Come to class prepared: bring a notebook, pencil or pen to every class.

Do your homework, “practice makes perfect”, especially algebra!

Check your work. If you have made a mistake try to figure out what went wrong. Then correct your mistake. Rework the problem from the beginning. Click on “do a similar exercise” on MyMathLab as many times as needed to master a skill.

Learn from your mistakes. Don’t skip steps. DO NOT try to do it all ‘in your head’. Skipping steps will ultimately waste your time from making simple errors.

Ask questions! My experience tells me that if you have a question, then at least 5 other classmates have the same question. There is no such thing as a stupid question.

Take notes. Jot down notes as you go through the MyMathLab instruction segments, take notes from the blackboard, do your homework assignments *neatly* in a notebook; use your notebook to work out the online assignments and tutorials.

Use class time wisely. Visiting other websites or conducting personal business during class time is prohibited.

“I hear and I forget,
I see and I understand,
I do and I learn.”-Confucius

Translation: You have to **do** the math to **learn** the math!

Best wishes for your success in mathematics!
