***Our Classroom***

Think of this class as a reading/writing workshop: A place where we meet to read/write, to talk about reading/writing, and to read one another's writing. I urge you to help me create a kind and encouraging environment, so that we may share ideas and learn from one another. We will be reading and discussing controversial topics, and I propose that we avoid debating issues and, instead, try to enter into points of view in order to understand them. "Debate" too frequently consolidates one in a previously held point-of-view, rather than opening up a receptiveness to new ideas and perspectives. Moreover, complex ideas generally have so many sides that an antagonistic approach to discussing them merely simplifies them out of their richness. This does not mean that we will always agree with one another, but we should try to disagree in ways that do not assume fixed and absolute positions. In addition, we shouldn't forget that thoughtful questions are as valuable as conclusive statements.

**Note on Reading:**

Reading is an important means of communication. It helps one to think, write, and communicate better. Just as there are different skill levels in any sport, reading has different skill levels and achievement as well. This course will help you to understand the different kinds of reading, help you to appreciate the importance of improving your reading skills, and show you how to improve your reading. By working together, we can accomplish our goals.
