No withdrawals are permitted after the last class preceding the final exam. Students who do not obtain an official withdrawal, but simply stop attending classes, run the risk of receiving an “F” grade for the course.

### **Note on Reading and Writing:**

Reading and writing are important means of communication. Just as there are different skill levels in any sport, reading and writing have different skill levels and achievement as well. This course will help you to understand different kinds of text and writing and help you to appreciate the importance of improving these communication skills. When you read and think critically you will write better. This course will connect critical reading and writing skills to help you produce interesting, thoughtful and well constructed papers. By working together, we can accomplish our goals.

### **Our Classroom**

Think of this class as a reading/writing workshop: A place where we meet to read/write, to talk about reading/writing, and to read one another’s writing. I urge you to help me create a kind and encouraging environment, so that we may share ideas and learn from one another. We will be reading and discussing controversial topics, and I propose that we avoid debating issues and, instead, try to enter into points of view in order to understand them. “Debate” too frequently consolidates one in a previously held point-of-view, rather than opening up a receptiveness to new ideas and perspectives. Moreover, complex ideas generally have so many sides that an antagonistic approach to discussing them merely simplifies them out of their richness. This does not mean that we will always agree with one another, but we should try to disagree in ways that do not assume fixed and absolute positions. In addition, we shouldn’t forget that thoughtful questions are as valuable as conclusive statements.

### **The Message**

As a student, you have basic responsibility for your success: our responsibility is to assist you in meeting your educational goals. The message below will help you take responsibility for your own academic success.

#### **Set goals and evaluate them.**

Ask, “Why am I here? What do I want to do? Where do I see myself in two years? What are my long-term goals?” Have a clear understanding of where you are. Have a reasonable plan involving realistic goals and a realistic time frame.

#### **Know what it takes to be successful.**

This is what it takes to be successful. Do them consistently!

- Attend class regularly.
- Complete all assignments by the due date.
- Participate fully in class.
- Schedule regular outside study time.
- Use college survival skills information.
- Participate in college life outside class.
- Request help when needed.

**Know where to find help.**

- Your instructor
- Your advisor
- Counseling office
- A peer advisor
- Class study groups
