CRN:10336

SEC: G07

INSTRUCTOR - GARY MOTIN

COURSE DESCRIPTION: This course focuses on basic algebra skills. Topics include:
linear equations, problem solving, graphing, exponents and factoring. (This course does not count toward the minimum credit requirement for graduation).

PREREQUISITE: Qualifying score on placement exam or Math K075

TRANSFERABILITY: This course does not transfer.

TEXTBOOK: BEGINNING ALGEBRA – 4th EDITION Martin-Gay

BUSINESS PHONE: 886-0177 Ext. 2177

ATTENDANCE: Attendance will be taken during each class. If you miss no more than two (2) classes and take at least three (3) of the five (5) tests on their scheduled dates, three points will be added to your average at the end of the semester.

HOMEWORK: An assignment will be given at the end of each class. You are expected to have completed it by the next class. Solutions will be reviewed in class.

MARKS/TESTS: Your mark is determined strictly by what you score on the tests. There is no retesting, extra credit work, dropped marks or curving. There will be five tests and a Final Exam. Each test is worth 100 points. The Final Exam is the equivalent of two tests. Thus, assuming there are five tests, the total of the five tests and the Final Exam mark doubled will be divided by 7 in order to obtain the student's average.

MAKE-UP TESTS: If you miss an exam you must make it up before the next scheduled test. Failure to do so will result in a "zero" grade on the missed test unless you have a compelling reason, and you receive prior approval from the instructor.

GRADES: The average of your exam grades will determine your course grade.
The grades possible and what is required to achieve each are:

A# An average of 94% - 100%

A-# An average of 90% - 93%

B+# An average of 87% - 89%

B# An average of 83% - 86%

B-# An average of 80% - 82%

C+# An average of 77% - 79%

C# An average of 73% - 76%

Consider adopting an older pet – they are more likely to be calm and already housetrained, and older pets still bring the same medical and emotional benefits to their owners as younger animals do.
