Course Description: Spanish for Criminal Justice Professional
CJS* K124 3 Credit Hours

This course is designed to provide the student with an overview of Hispanic cultures and the roles they play in the criminal justice and corrections systems. Students will gain a basic understanding of the colloquial and idiomatic Spanish frequently encountered by criminal justice and corrections professionals.

Course objectives: To provide the setting where students practice the Spanish needed to perform work-related procedures in law enforcement in order to:

- Increase Officer Safety
- Enhance Job Performance
- Provide Protection from Legal Liability
- Increase Community Safety
- Project a Positive Image in the Hispanic Community

Learning outcomes: With practice and motivation at the end of this semester, students will be able to pronounce Spanish clearly and with authority, utilizing job related phrases and vocabulary to accomplish the following tasks:

- Stop a suspect
- Make a vehicle stop
- Issue a traffic ticket
- Search a person or suspect
- Make an arrest
- Obtain basic information
- Identify himself or herself
- Greet and say goodbye
- Attend to medical emergencies
- Read the Miranda warning and waiver
- Identify insults, profanity, and hostile language
- Book suspects
- Conduct procedures in correctional facilities

Criteria of evaluation: Evaluation will be determined as follows:

1. Completion of written and/or oral assignments and exams. **Important Note: Make up tests and exams are not allowed unless extenuating circumstances prevent a student from taking the test or exam on test days.**
2. Listening to textbook CD's is mandatory.
3. Instructional scenarios and class presentations are a major component of the class.
4. Class attendance.

Attendance policies: Because of the cumulative nature of language learning, frequent exposure to the material and keeping up with the assignments is very important. Suggestions on how to study and learn a foreign language

- **Practice** the language as much as you can.
- **Imitate** as exactly as you can. If you read silently you are only using your visual memory if you study **out loud**, you triple your efficiency by adding auditory memory and motor memory.
- Learn **one concept** at a time. Break up a lesson into small units.
- **Study for short periods of time.** Start off with twenty minutes to a half an hour at the most; then turn to some other work; then come back for another twenty minutes; and so on. Four half hour periods of study will produce far better results than two uninterrupted hours.
- **Make full use of class time.** Don't close off your mind when somebody else is responding in class. Recite mentally with him or her and get half the learning job done that way.
- **Keep up with the assignments** and don't fall behind. Language learning is cumulative. You build on what you learned previously. You must know the concepts of chapter 10 before you can learn the concepts of chapter 11.
- **Come to class prepared.** Don't stay away from class if you are unprepared. You'll fall still farther behind. Tell your instructor and learn from the classroom work.
- **Literal translation** from one language to another is not possible in many cases. Learn to read for meaning rather than just translating
- **Don't try** to cover the whole assignment in one sitting. Break it up in segments, re-read each part and then re-read the whole
- **Make a list** or flash cards of your own particular nuisance words; words you have to look up again and again spend special time on them. Except for such nuisance words, don't write out list of words you had to look up- unless you think you have time to waste.

Components of the course: Textbook with CD's

Textbooks: Dr. Sam Slick: **Command Spanish:** Petal. Mississippi

The **Textbooks** introduce and provide activities to practice basic job-related vocabulary and phrases in order to conduct procedures in a criminal justice environment. The DVDs offer practice in listening, comprehension, and pronunciation of the same material.

Course outline=Plan de Trabajo

Out of class preparation is essential for language learning. Do the assigned material prior to coming to class, not during class. Class time reinforces the material you have already studied at home.
