I strive to create an atmosphere where students can feel safe to take chances with their work, and not feel intimidated by trying something new. Struggling in the beginning is normal; just remember I do not expect you to be perfect. I only ask you to try your hardest.

-Grading

Grading will be based three criteria: your grasp of the concepts, originality and presentation of work. Each project will be handed in on the day it is due and graded. Handing work in late will result in a lower grade.

. Two major projects will be handed in during the course, one at mid term, and the other towards the end of the class. These projects will be giving a letter grade, and will serve as an indication of where your grade stands at that point. If you ever have a question regarding how you are doing in the class, please feel free to speak to me about it before or after class. Your level of class participation and your attendance will also be reflected in your grade.

Projects- 25%

Mid-term and final projects- 25% each

Class participation and attendance- 25%

-Class Participation

Students are expected to participate in all classroom activities, critiques, and discussions. Part of your grade will reflect your participation in class. Please feel free to ask questions, discussion will be a very important part of this class, and I hope to create an open environment in which students feel free to ask questions.

-Attendance

Students are expected to attend each class. Class should only be missed due to an extenuating circumstance. Please email me if you absolutely cannot attend class. Students should be in class on time, and stay until you are excused. If you know in advance that you cannot attend class, please tell or email me in advance.
