Course Requirements and Grading

Six Exams:

Each exam will have 25 multiple choice questions and 15 true-false questions worth two points each, and five short-answer questions worth four points each, for a total of 100 points on each exam. In calculating your final grade for the course, the highest grade on the six exams will count as one and a half exams, while the lowest grade will count as half an exam. No make-up exams will be given unless the student presents a valid excuse. A student who misses an exam will receive a grade that is 25 points lower than the lowest passing grade for the exam.

Ten Research Assignments:

There will be ten research assignments. Each assignment is worth a varying number of points, but the total number of points for all the research assignments is 100. Assignments not turned in on time will receive no points. The ten research assignments will count as a seventh exam. The research assignments are in *Course Content*. Go there first to read them. They are submitted in *Assessments*.

Attendance Policy:

Beginning Tuesday, January 24, attendance will be taken daily. You are allowed two unexcused absences during the term. For each unexcused absence after two, your final course average will be reduced by two percentage points.
